FINAL ACTION

Applicant's amendment of 12-12-08 has overcome the previous rejection of 112/1st paragraph, and the rejection of 112/2nd paragraph, items (b) and (c). The rejection of 112/2nd paragraph item (a) is still outstanding. However, the amended definition of Q¹ has raised new matter.

Claims 20-23 and 26-30 are cancelled.

Claims 1-19, 24 and 25 are pending.

Claim Rejections - 35 USC § 112, Second Paragraph

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

1. Claim 24 remains rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. Claim 24 recites the phrase “*converting a quinazoline derivative of the formula I into another quinazoline derivative of the formula I.*” It is unclear which derivative is converted into which.

Claim Rejections - 35 USC § 112, First Paragraph

The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to

Art Unit: 1624

enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

2. **New Matter:** Claims 1-17, 19, 24 and 25 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention. The definition of Q¹ is amended with an alkyl or alkoxy group having a smaller range of carbon atoms, going from 1-6C to 1-4C. The range of 1-4C is not disclosed for Q¹ in the specification. The support cited by applicants (p. 35, lines 1-3; p. 165, Table 2) is for Q², and not Q¹.

Allowable Subject Matter

3. Claim 18 is allowable because the species recited in claim 18 is not taught or fairly suggested by the prior art of record.

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a).

Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after

Art Unit: 1624

the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
